Destiné à un usage domestique
Destinado a un uso doméstico
For domestic use
Bestemd voor huishoudelijk gebruik
Para uso doméstico
Destinato ad un uso domestico
Bestimmt für den Hausgebrauch

- Eviter le contact direct des coussins, de la résine tressée et/ou du plateau de verre, avec une source de chaleur (bougie, appareil électrique, chauffage, etc...)
- Eviter de laisser l'eau s'accumuler sous le plateau de verre ; les gouttes, sous l'effet loupe, peuvent endommager la résine par beau temps.
- Les coussins sont résistants à l'eau mais ne sont pas imperméables, il est conseillé de les stocker à l'abri en cas de non-utilisation ou d'intempéries, dans le but de préserver les propriétés déperlantes des housses, ainsi que leur teinte d'origine.
- La structure de votre mobilier est en aluminium, ce qui lui confère une longévité importante. Cependant, vous pouvez tout de même l'hiverner, en le mettant à l'abri ou en le couvrant d'une housse.
- Pour des raisons logistiques, les coussins sont rangés sous les modules.
- Poids d'assise maximal : 110kg

CONSEJOS DE USO DE SU MOBILIARIO DE JARDÍN

- Evitar el contacto directo de los cojines, la resina trenzada y/o la bandeja de vidrio, con una fuente de calor (vela, aparato eléctrico, calefacción, etc.).
- Evitar que se acumule agua bajo la bandeja de vidrio ; las gotas pueden dañar la resina cuando hace sol por el efecto lupa.
- Los cojines son resistentes al agua pero no son impermeables; le aconsejamos ponerlos a cubierto en caso de no utilizarlos o en caso de mal tiempo, con el fin de preservar las propiedades repelentes de las fundas, así como su color original.
- La estructura del mobiliario es de aluminio, lo que le confiere una larga vida útil. Sin embargo, en invierno puede protegerlo, poniéndolo a cubierto o tapándolo con una lona.
- Por razones logísticas, los cojines se colocan debajo de los módulos.
- Peso asiento máximo : 110 kg

DIRECTIONS FOR USE OF YOUR OUTDOOR FURNITURE

- Do not allow cushions, wicker/rattan and/or glass tabletops to come into direct contact with a heat source (candle, electric device, heater, etc.).
- Do not let water collect under the glass tabletop – in sunny weather water can produce a magnifying glass effect which can damage the wicker/rattan.
- The cushions are water resistant, but not waterproof. We recommend storing them away during adverse weather conditions and when not in use in order to preserve their water-resistant coating and original colour.
- Your furniture is made from aluminum, which guarantees it a long life. However, you should still take winter precautions with your outdoor furniture set by storing it away or covering it.
- For logistical reasons , the cushions are located under the elements.
- Maximum seat weight: 110 kg/ 242 lbs

- Voorkom dat de kussens, het wicker en/of het glasblad in contact komen met warmtebron (kaars, elektrische apparaten, verwarming, enz.).
- Laat geen water verzamelen op de glasplaat; de zon kan een vergrootglas effect hebben en de lak beschadigen.
- De kussens zijn waterbestendig, maar niet waterproof. Het is derhalve aanbevolen de kussens op te bergen na gebruik of bij slecht weer teneinde de waterafstotende eigenschappen van de hoezen, alsook hun oorspronkelijke kleur, te behouden.
- De structuur van uw meubilair is van aluminium, waardoor het een lange levensduur heeft. Het is aanbevolen om uw product in een droge plaats op te bergen tijdens de winter of het met beschermhoes af te dekken.
- Wegens logistieke redenen, zijn de kussens onder de wicker elementen gerangschikt.
- Maximale zitplaatsen gewicht: 110 kg

DICAS PARA USAR O SEU MOBILIÁRIO DE JARDIM

- Evite o contato direto de almofadas, resina trançada e / ou bandeja de vidro com uma fonte de calor (vela, aparelho elétrico, aquecimento, etc ...).
- Evite deixar a água acumular na bandeja de vidro; as gotas, sob o efeito de aumento, podem danificar a resina em boas condições climáticas.
- As almofadas são resistentes à água, mas não são à prova de água, é aconselhável armazená-las no abrigo em caso de não utilização ou mau tempo, a fim de preservar as propriedades repelentes de água das capas, bem como a sua cor originais.
- A estrutura do seu mobiliário é de alumínio, o que lhe dá uma vida longa. No entanto, você ainda pode inverná-lo, abrigando-o ou cobrindo-o com uma capa.
- Por razões logísticas, as almofadas são armazenadas sob os módulos.
- Peso máximo do assento: 110 kg

CONSIGLI PER L'UTILIZZO DEI VOSTRI MOBILI DA GIARDINO

- Evitare il contatto diretto dei cuscini, della resina intrecciata, e del vassoio di vetro con una fonte di calore (candela, apparecchiatura elettronica, riscaldamento, etc...).
- Evitare lasciare l'acqua accumularsi sul vassoio di vetro; le gocce possono danneggiare la resina a causa del riflesso solare.
- I cuscini sono resistenti all'acqua ma non sono impermeabili; è consigliato mantenerli al riparo in caso d'inutilizzo o intemperie per conservarli al meglio.
- La struttura del vostro mobiliario è in alluminio per conferire una longevità maggiore. Durante l'inverno e nei lunghi periodi d'inutilizzo è consigliabile mettere il prodotto al riparo o coprirlo con una custodia.
- Per motivi logistici, i cuscini vanno sistemati sotto i moduli.
- Peso massimo area di seduta: 110 kg

- Vermeiden Sie den direkten Kontakt des Textile mit einer Wärmequelle (Kerze, Elektrogerät, Heizung, usw ...)
- Aus Stabilitätsgründen und um ein Überziehen der Schraubengewinde zu verhindern, ist unbedingt erforderlich alle Teile vorerst manuell zu montieren und alle Schrauben von Hand anzuziehen. Nach Fertigstellung der Montage können die Schrauben fester angezogen werden.
- Die Struktur der Möbel aus Aluminium ermöglicht ihnen eine lange Lebensdauer. Allerdings sollten die Möbel über Winter oder bei Nichtgebrauch an einem trockenen und geschützten Ort gelagert werden.
- Die Neigung der Rückenlehne darf nicht geändert werden, solange der Stuhl in Benutzung ist.
- Lassen Sie Kinder nicht mit dem Produkt spielen oder die Neigung der Rückenlehne ändern.
- Maximale Belastbarkeit: 110kg
